ANALYST NOTES	
Batch/lot conformity testing was completed using representative samples from the submitted lot. Analytical results were reviewed for consistency across the tested samples, and the values reported on this Certificate of Analysis reflect the average results obtained for the batch/lot. The tested units demonstrated acceptable conformity within the applicable analytical specifications.	
Sterility testing by Rapid Microbiological Method (RMM) was completed, with no microbial growth detected under the conditions of the test. The batch/lot therefore met the stated RMM sterility acceptance criterion of Growth Not Detected.
